

MANIC MINUTE

Instruction guide

HOW TO PLAY

The deck contains 50 cards with a category and you have exactly 1 MANIC MINUTE™ to write down as many answers as you can. The catch? Your answers must be unique to get a point, but if you don't write down the most obvious answer then you are giving points away!

Each player takes turns to take a card from the pack and read the category and then turn the timer before furiously writing down the answers in just 1 MANIC MINUTE™

After the MANIC MINUTE™ is up, each player takes turns to read out their answers. **If someone else has the answer then you both cross it off your list**, and your score for that round is the number of unique answers left after everyone has read out their answers.

The person who turned over the card is the adjudicator for the round and will have the final say on what answers count.

The play then resumes with a fresh card and another MANIC MINUTE™ happens!

HOUSE RULES

Establish House Rules before you begin – for example if the category is ‘Girls Names beginning with ‘A’ is ‘Aimee’ and ‘Amy’ the same or different?

If the category is ‘Kings’ – Can you write King Henry 1–8?

For younger players, you may consider allowing them points for just writing down an answer even if there is a duplicate in the game.

Unique things to your family can be used – of course you will have to justify your answers!

Play continues for a set number of rounds or until a certain player scores a pre-set number of points.

Watch out though some rounds will score much higher than others – things can change quickly in **MANIC MINUTE™!**

HINTS AND TIPS

Remember to write the obvious down, or do you assume others will do that so you can write down the most fiendish answers!

Think laterally, if the 'Kings' category comes up – think of a well known horror writer.

Use the blanks to make up your own fun categories for your family.

Remember to think outside the box and have fun!
